

Week 1 Midterms Improvement:

This is my week one improvement. As you can see from prelims html only. Adding CSS makes my Online portfolio much more presentable. What are the things I Add, remove, and improve.

Header, I remove the border, retain navigation button and place it on right instead. I added a simple logo as well. All pages have the same header with navigation and logo. Body as of this week I improve first is the homepage. Compare to my prelim output adjust, insert background. Remove background for my picture to be more presentable and put it on the right while my name or text on the left with my socials and git as well. My social is clickable as well and directs you to my social accounts. Footer, I include footer as well with copyright of my online portfolio. What else? I replaced my certificate page in to contact and remove contact to about me. I Added a comment section as well to my contact. On the upcoming weeks I am planning to improve and finish other pages and think more content to put in my portfolio.

HOME PAGE Update

```
<body class="homescreen">
  <header>
    <div>
      
    </div>

    <div class="buttons">
      <a href="aboutus.html">
        <button class="styled">About Me</button>
      </a>

      <a href="achivement.html">
        <button class="styled">Achievement</button>
      </a>

      <a href="contact.html">
        <button class="styled">Contact</button>
      </a>
    </div>
  </header>

  <main>
    <div class="container">
      <div class="homelaman">
        <h1>Hi There,</h1>
        <h1>I'm Dwayne Andrei Tan</h1>
        Third year IT Student<br>
        <div class="social">
          <a href="https://www.facebook.com/profile.php?id=100090915611861" target="_blank">
            
          </a>
          <a href="https://www.instagram.com/liil dayyy" target="_blank">
            
          </a>
          <a href="https://github.com/ItzDylighty" target="_blank">
            
          </a>
        </div>
      </div>

      
    </div>
  </main>

  <footer>
    <p>FTR. est 2024</p>
  </footer>
</body>
</html>
```

CSS

```
/*HEADER*/
.buttons {
  display: flex;
