**Week 2 Midterms Improvement Update:**

       This week 2 what are the things I improve, adjust, replace? Basically, I focus more on the other pages like about me, achievements, contact. On about me pages the things I improve are to put borders for each division for more appealing design on it. I added a bio note as well to introduce myself more, not just my skills and hobbies. As you can see in week 1 on bottom and week 2 on the top it is much look cleaner and nice. Same goes for achievement list I just added logos for the school I've been. I am planning as well that each logo should be clickable and will direct the users to the link of social media or internet information. Lastly, I fixed my contact page as well. I took inspiration from internet for a much better contact page and apply it with my own portfolio. Planning to improve more in the upcoming week and add a login page as well to make more professional portfolio website.
